Instructions for the Test User

Test User n°_	
---------------	--

First of all, thank you for your time. We kindly ask you to read carefully this document before starting the test session.

Purpose

The goal of the study is to observe the actual usage of the REPLY.COM website in order to evaluate its usability. Please, remember that the examination concerns the website, you are not going to be evaluated for your performance.

Structure

The test is structured in two main phases:

1 Task phase

In this first phase, you are asked to accomplish the 6 tasks described in the next pages.

2 Survey phase

After the first phase, you will answer a few questions about the experience.

Equipment

Usually, User Testing are performed in specific Usability Lab. Due to the pandemic, we organised the session online.

- You are asked to <u>share your screen</u>, <u>open the microphone and turn on the webcam</u>. We require this in order to obtain a better dataset to analyse.
- We ask you to <u>apply the "Think Aloud" technique</u>, which consists in externalise by voice what you think and plan during task execution. For example, you can explain the steps you will take to reach the final result saying phrases such as "I'm looking for the *XYZ* command on the page" or "I access the *ABC* section because I think what I'm looking for is there".

REMEMBER THAT

- The website is under examination, not you.
- You are free to quit at ANY TIME.
- A facilitator is here for any question or doubt.

ANY QUESTIONS BEFORE STARTING?

NB: In order to record the session, we kindly ask you to sign the attached CONSENT FORM.

Preparation

- Open your microphone Turn on the webcam
- Share your screen
- Turn off your mobile phone to avoid any kind of distraction

Task Phase

- Go to www.reply.com
 Complete the following tasks:
- Remember to start each task from the **homepage**.

Task		Description	
<i>T</i> 1	Register to a Webinar	You are very passionate about the world of artificial intelligence. Look for information on the latest webinar related to artificial intelligence that took place in the past. What you read will make you want to know even more, so you will decide to register for the next webinar related to this topic which will be held in Italian.	
T2	Locate the Milan Office	You are interested in finding out more information about the Reply offices in Milan. In particular, you want to know the address and telephone number of the office closest to the centre of Milan.	
Т3	Retrieve information about a game	You are a master student with a passion for gaming and virtual reality. You have heard of a game called Theseus developed by Reply and would like to know more information about the game and the platforms for which it is available for the thesis you are writing on VR.	
T4	Retrieve information about a collaboration	You are an American student graduated at University of Illinois at Chicago in Computer Science and Engineering. You are looking for a seat in Reply. Search a job opportunity and discover which benefits it offers.	
<i>T</i> 5	Event discovery	Your little sister is interested in computer science. Find if Reply offers some opportunities for children. You also want to stay updated about the upcoming opportunities by means of social networks.	
Т6	Financial Report	For the optional project of Accounting and Financing, you are asked to analyse in depth several companies. One of them is Reply. Find the information about the share of the company. Furthermore, find the contact information of the INTESA SANPAOLO analyst.	

Survey Phase

• Complete the following form: <u>reply-form</u>
